

Political process Segment of basin authorities

Dr Eric Tardieu

INBO Secretary General

Vice-President of the World Water Council

- **The basin segment is confirmed! Let's bring it a step further, a step higher!**
 - 1st time in Dakar, via the strong input and joint ambition of Senegal, the African TBOs and the World Water Council
 - Main outcome : Dakar action plan
 - Led to different initiatives, and notably « the Transboundary Water Cooperation Coalition », launched in december in Paris during the UN Groundwater Summit
- **Let's the Dakar Action Plan for the Basins of Rivers, Lakes and Aquifers be our reference for the preparation of the 10th WWF**
 - Complements? updates?
 - Implementation initiatives!

Always time to sign up!

CONICET

- **In Bali, we want to continue and deepen our efforts :**

- To accelerate achievement of SDG 6.1 and 6.2 via basins and for basins
- Call for ideas, initiatives, key topics
 - Cross-sectoral approach considering water at the middle of Energy, Agriculture, Finance, Industry, Tourism, Environment and Fisheries.
 - Transboundary cooperation for shared river basin and transboundary rivers.
 - Drivers of change at the basin level should be recognized and prioritized for adaptation to climate change.

- **Need for more Asian examples and focus**

- Taking into account regional specificities of the continent of WWF10!
- Connexions with the regional process?

The Dakar action plan stipulates that River Bassin Organizations must reinforce their mobilization to:

Confirm their role and effectiveness for Water security, peace, sustainable development.

Accelerate implementation of SDGs, in particular 6.5.1 et 6.5.2.

- Indicator 6.5.1 *“Degree of integrated water resources management implementation (0-100)”*
- Indicator 6.5.2 *“Proportion of transboundary basin area with an operational arrangement for water cooperation”.*

Reinforce upstream-downstream integration and facilitate water resources allocation

Do we agree upon these political objectives ?
Needs for updates ?

The Dakar action plan stipulates that River Bassin Organizations must be reinforced by:

- Reinforcement of institutional frames, including for transboundary Basin Organizations (TBOs)
- Reinforcement of data sharing practices and shared Water Information Systems
- Dissemination of practices and tools for water users participation and awareness raising
- Reinforcement of exchanges with other policy levels

Do we agree upon these priorities? How should we complement and rank them for the political process ?
