Theme of the 10th World Water Forum

Water for Shared Prosperity

3 main players in water resources:

1. People who need good access to water
2. Governments who provide Public services
3. Private Sector who search for profit

Managing water together with the aim of prosperity for all through:

- Integrated Management
- Continuous Innovation
- Latest Technologies
- Active Participation
- Sharing of Interests
- Incorporate the Local Wisdom

- Ministry of Public Works and Housing
- National Research and Innovation Agency

Water for Humans and Nature

Water Security and Prosperity

Disaster Risk Reduction and Management

Cooperation and Hydro-diplomacy

Water and Innovative Finance

Knowledge and Technologies

RESOLUTION OF SUSTAINABLE LAKE MANAGEMENT

UNEA Resolution No. UNEP/EA.5/Res.4

Adopted on 2 March 2022

1. **Requests all States Members of the United Nations or members of specialized agencies, and invites relevant international organizations, where applicable, to undertake and implement the following, individually and collectively, as appropriate:**
 - To protect, conserve, restore and ensure the sustainable use of lakes;
 - To integrate lakes into national and regional development plans;
 - To take into account their local culture and knowledge, and to engage and build capacity of local communities;
 - To involve all stakeholders;
 - To take into account research and scientific guidance;
 - To develop international networking and collaboration.
2. **Requests the Executive Director of the United Nations Environment Programme to take action in the following three major areas:**
 - To support the advancement of sustainable lake management at all levels, in coordination with relevant conventions, as appropriate;
 - To facilitate collaboration between States Members of the United Nations or members of specialized agencies in research, capacity-building and the sharing of knowledge, information and best practices, including through North-South, South-South and triangular cooperation;
 - To advance the mainstreaming of sustainable lake management in the global agenda and raise awareness of sustainable lake management at the global level to further highlight the important role played by lakes in supporting sustainable development and maintaining the well-being of ecosystems and humanity.

Missions of the World Water Forum 2024

The main missions of the World Water Forum 2024 are to:

- provide **platform** for all stakeholders to exchange views, information and knowledge on **current issues** and information related to global water.
- present the **knowledge on global water assessment**, challenges and potential solutions.
- generate **political commitment** for the improvement of water management

The Kick-off Meeting is to **lay out the first step to achieve these missions**, therefore I invite all participants to deliver your views and perspectives in resolving imminent water challenges concerning the organization of the forum and to further detail the frameworks.

10TH WORLD WATER FORUM

WATER FOR SHARED PROSPERITY | 18 - 24 May 2024 | Bali, Indonesia

THANK YOU
